# ABOUT US

Cryptocurrency, or crypto, is a form of digital payment. Unlike traditional currency which represents physical money, cryptocurrencies are purely digital assets. Although people use it primarily for online transactions, you can sometimes use it to purchase physical assets. To minimize your risk and get started immediately, you can start investing periodically in Bitcoin for a sum as low as Rs 100 and leverage the price differences to maximize your gains.

Simply speaking, invest today before the prices surge further and hold it until you get a reasonable profit on your investment.

Cryptocurrency trading works via a unique technology called blockchain. It serves as a digital record of all your transactions and each block is added and made into a chain.
